RECYCLING HELPS CITY of RIVERSIDE MEET STATE REQUIREMENTS

Athens Services offers a wide array of waste management services designed to help the City of Riverside's commercial businesses and apartment owners reduce and recycle their waste products.

These services are vital to the city's achievement of the waste reduction mandates set by California's tough waste management law, AB939.

Your Account Manager is available to meet with you to discuss improving your waste management practices and procedures. Source separated service is available for large volume producers of anything that is recyclable.

We can supply you with special collection bins for your recyclables and free training on how to use them to assure that your recyclables are diverted away from the landfill.

For information regarding these programs, contact Athens Services at (888) 336-6100 or on the Web at www.AthensServices.Com.
