

YOUR BUSINESS AND MANDATORY ORGANICS LEGISLATION

AB 1826 – Law requires that California businesses arrange for organics recycling services.

Who Must Comply:

All commercial or public entities, including multifamily dwellings of five units or more, that generate four or more cubic yards of solid waste per week.

How Do I Comply?

- To comply you must arrange for organic waste recycling services. Please call Athens Services at (888) 336-6100 to schedule a **FREE** organics recycling assessment.
- Per the legislation, multifamily dwellings need only to arrange collection for green waste (including landscape/pruning waste and unpainted/untreated wood). Multifamily dwellings are not required to arrange for collection of food scraps and/or food-soiled paper at this time.

Our Recycling Solutions:

- Athens Services provides a separate container for your separated organic waste.
- Athens Services recycles your organics through composting and mulching at our compost facility, American Organics.

WHAT GOES IN YOUR ORGANICS CONTAINER

Please call Athens Services at (888) 336-6100 to schedule a **FREE** organics recycling assessment.
