

June 22, 2023

Dear Riverside Businesses,

**Welcome to the Athens family!**

The City of Riverside has awarded Athens Services the exclusive agreement to provide recycling, organics, and waste collection services for commercial businesses within the City. Starting the week of July 1, 2023, Athens will launch new programs and commence services for all businesses.

The partnership between the City and Athens represents a shared commitment to providing innovative waste diversion solutions and ensuring the highest standards of customer satisfaction. As a family-owned and operated company, Athens has decades of experience serving the Southern California region and has a deep understanding of the Riverside community's waste collection needs.

**Comprehensive Waste Solutions**

Athens offers a wide range of services tailored to meet the specific needs of businesses, including recycling and organics collection, edible food recovery, and waste disposal.

**Reliable and Timely Service**

Athens has a dedicated team based in Riverside to oversee operations and ensure that customers are serviced on time and disruptions to business operations are minimized.

**Sustainable Practices**

As a landfill-avoidance organization, Athens prioritizes recycling and waste diversion solutions to help businesses achieve their sustainability goals and reducing their environmental footprint.

In the coming days, an Athens representative will be reaching out to businesses to facilitate the onboarding process. They will provide all the necessary information and guidance to seamlessly transition current services and help establish a successful waste collection program.

To learn more about Athens and the services available to the Riverside community, please call the Athens Customer Care Center at (888) 336-6100 or visit [AthensServices.com/Riverside](https://AthensServices.com/Riverside).

**We look forward to serving you, Riverside!**
