FALL/WINTER 2026

Get to Know World Centric

World Centric was founded in 2004, not to sell products, but as a response to the Iraq War. The belief was simple: when people better understand the world around them, they make different choices.

We started as a nonprofit, creating documentaries, educational courses, and resources about global inequality and environmental challenges. Our shift to compostable foodservice products wasn't a departure from that mission. It was a way to support it for the long term. While nonprofits rely on donations, a mission-driven business can generate the resources to invest in frontline organizations year after year. The products became the engine that helps power the impact.

How the Model Works

We make compostable foodservice products that help replace conventional plastic. Every cup, bowl, and container is designed to reduce waste while helping build a better world. Our products also make our impact possible. Each year, we donate at least 25% of profits to more than 60 frontline organizations working on reducing poverty, restoring ecosystems and advancing food security, water access, community resilience, and human rights. **Since 2009, we've donated more than \$23 million.**

What This Means for Customers

When you purchase from World Centric, the transaction does two things: it puts a certified compostable product into your operation, and it moves funding to frontline organizations working on some of the world's most pressing problems. That is not a giving program layered onto a business. It is the architecture of the business — built that way from the start.

The Proof

- **Founded 2004 as a nonprofit.** The mission has not changed over 22 years.
- **Transitioned to For-Profit in 2009.** Business funds the mission.
- **B Corp certified since 2010.** Third-party verified and recertified 7x.
- **Benefit Corporation since 2013.** Doing good as a legal obligation, not an aspiration.
- **Minimum of 25% of profits** committed annually. \$23M+ cumulative giving to frontline organizations.
- **30,000 tons** of petroleum based products replaced every year.

Where the Giving Goes

Roughly 838 million people live on less than \$3 a day (the current World Bank threshold for extreme poverty) without reliable access to food, clean water, sanitation, education, or healthcare. Climate change is deepening this gap. World Centric's giving is directed at both fronts: poverty reduction and environmental resilience, with smaller programs supporting composting infrastructure, food access, and food waste reduction.

Giving details to date since the inception of our program in 2009:

\$23M+

Total Giving Since 2009

Impact Grants, Regional and Carbon Giving, Staff Giving, Employee Donation Matching and Product Donations

338+

Programs & Projects Funded

Spanning the globe, directed toward the areas of greatest need

Through our giving, we aim not only to provide assistance but to help drive systemic change at the root of these issues. To learn more, see pages 42-43 for a feature on our impact partner ALIADOS or visit our website worldcentric.com/giving.

Sustainable Business Certifications & Memberships

Public Benefit Corp Since 2013

As a Benefit Corporation, we focus on how our business affects society and the environment. We aim to create a positive, measurable impact for employees, vendors, and the wider community.

Certified B Corp Since 2010

As a certified B Corporation with a score of 126.2, World Centric demonstrates a strong commitment to social and environmental performance, accountability, and transparency.

1% For The Planet

One Percent for the Planet is an international organization whose members contribute at least one percent of their annual revenue to environmental causes to protect the environment.

National Minority Development Council

The NMSDC advocates and serves as a growth engine to create a more inclusive and equitable business landscape for minority owned businesses.

See page 47 for our product certifications.

Navigating Compostable Industry Regulations

US Composting Council®

World Centric is committed to advancing the circular economy and establishing ourselves as thought leaders in the compostable products sector. Through our active membership in the US Composting Council and other industry organizations, we maintain a dedicated team of subject matter experts ready to support our customers' environmental goals.

**Our Team
Can Help:**

**Recommend
Products**

**Navigate
Compliance**

**Advocate for
Compostables**

Recommendations Our team provides comprehensive guidance on sustainable decision-making, composting infrastructure, waste reduction and diversion programs, and evolving local and federal legislation.

Compliance We help customers navigate compliance requirements, advocate for the acceptance of compostable products with composting operators, and deliver data-driven recommendations for optimal end-of-life solutions and beginning-of-life choices.

Advocacy Our Government Affairs and Policy expertise makes complex packaging regulations accessible and actionable for implementation. Connecting operators with the right resources to design and execute successful waste diversion programs ensures that your actions can help reduce the impact of our consumption on the environment and help create a better world.

For expert guidance on your sustainability initiatives, contact us at zerowaste@worldcentric.com.

Bamboo and Fiber Cutlery

Our durable, compostable paper, bamboo and fiber cutlery is a perfect sustainable swap for petroleum plastic.

NEW! PLL-FB-9-LF

Introducing New Dome Lid for 9" Plates

Serve customers safely and sustainably with our new fiber dome lid. Perfect for cafeterias that serve prepared meals directly to patient rooms or for takeout, the lid fits securely and keeps food warm and fresh. Made from unbleached plant fiber with no added PFAS, these lids are durable and compostable where facilities exist.

Sustainable Product Certifications

World Centric is proud to partner with NSF International, a global leader in product certification, to verify the compostability of our products. NSF is a global not-for-profit public health and safety organization that provides trusted third-party verification, ensuring that compostable products meet stringent standards and comply with evolving regulations. Learn more at [nsf.org](https://www.nsf.org).

Our products undergo testing to ensure they contain no added PFAS and meet ASTM standards for compostability, enabling them to earn and maintain the following certifications. For more details about our certifications, see our website worldcentric.com/certifications.
